## HON. C. A. SWANSON TO RUN AGAIN

Race. as to the probable candidates for the governorship in 1905, and the friends of

son has fully made up his mind to run and that he is looking steadily to that

The race is surely going to be a lively one. General Rufus A. Ayers, of Wise, has been here for a few days, and he is thought to have an eye upon the covered honor. He has not mineuriced his candidacy for the honor, but the entire Southwest is urging him to run, and he has friends all over the State. Leutenant-Governor Wilhard is looked upon as a live candidate, and his friends are displaying a great deal of activity in different sections of the State, Major W. A. Anderson, the present popular and efficient Attorney-General, is also expected to stand for the honor, and he is a man of wonderful strength before the people, especially in the Valley section.

Hon. Harry Tucker is mentioned, but he will hardly run, as he has declared he will not oppose Major Anderson, and again he is helieved to have the congressional bee buzzing strongly in his honnet.

Other gentlemen of prominence in the surely going to be a lively

Democratic councils are mentioned, and it is evident that the race is going to be a lively one.

Taylor is beyond description, and as a portrayer of character and the beauties of nature, his heart warms with praises of his creator, and he is the golden orator. His famous campaign for the governorship in 1893 brought him to national attention because he defeated both his father and brother. While his farewell address delivered on his retirement, and his charge to the Governor-Beet McMillin will rank with the deliverances of any of our Southern exceutives, Governor Bob has scattered more sunshine and created more laughter nore sunshine and created more laughte among the amusement loving people than any man who has graced the platform within the memory of the present genera-tion. It is a matter of surprise how hard farmers are struggling through all kinds of weather and muddy roads to finish marketing the crop. They claim that while they can do no outdoor work, that is good policy to wind up the crop sale, so that when the weather admits they can prepare lands for this very account.

up the crop sale, so that when the weath, or admits they can prepare lands for this yearr's crops.

While tolacco is much cheaper than it was in December, yet there is comparatively little grumbling among the planters. Not tobacco has sold his week for less than six dollars per hundred unless than six dollars know that they made a "ten strike" when they quit all other work during the autumn and early winter and devoted all of their time and energy to siripping and marketing.

The concensus of opinion is that about eighty-flye per cent, of the crop in this section is sold. Unquestionably more money has paid for that which has been sold than was ever paid for a whole crop in any year, consequently farmers are in a much better condition financially than they ever were. About ten million pounds have been sold on this market. Warehousemen are hoping by extending the area over which they have solicitors to make the sales for the fiscal year reach it 200,000 pounds. Manufacturers of fertilizer are letting no gress grow on their steps; they are in the field already establishing more agencies than usual.
